## Summary

Offensive Security Professional with 5+ years of experience specializing in Web, API, Mobile, Cloud, AI/LLM, and Network Penetration Testing. Skilled in delivering comprehensive security assessments, Vulnerability Assessment & Penetration Testing (VAPT), Attack Surface Management (ASM), OSINT, and Threat Modeling to identify and mitigate real-world security risks. Successfully identified and responsibly disclosed security vulnerabilities to numerous organizations worldwide, including several leading technology companies.

---

## Experience

### RedHunt Labs - ASM DELIVERY LEAD

04/2024 - Current

- Conducting Web, API, Mobile, and Network Penetration Testing engagements to identify security vulnerabilities and provide risk-based remediation recommendations.
- Performing Attack Surface Management (ASM)-driven VAPT through comprehensive attack surface analysis and in-depth Open-Source Intelligence (OSINT).
- Leading end-to-end Attack Surface Management assessments while managing and mentoring a team of security consultants to ensure high-quality project delivery.
- Collaborating with clients and cross-functional internal teams to define engagement scope, communicate security findings, and provide technical security guidance.
- Developing automation scripts, security tools, pipelines, and workflows, including JavaScript, GitHub, and Docker secret scanning and supply chain risk detection solutions, to streamline offensive security assessments and improve team efficiency.
- Contributing to product enhancements by identifying and addressing coverage gaps through the design and implementation of new security checks, detection capabilities, and assessment modules.
- Leading technical interviews, evaluating practical penetration testing skills, security methodologies, OSINT, and technical problem-solving capabilities.

### RedHunt Labs - SECURITY CONSULTANT – CPS Lead

04/2022 - 03/2024

## Skills

- Web and Mobile Application Penetration Testing
- Network Penetration Testing
- API Penetration Testing
- Attack Surface Management
- AI/LLM Security
- SCA
- OSINT
- SAST & DAST
- Cloud Security
- Threat Modeling
- Malware Analysis
- Security Automation

---

## Education

06/2025

**RABINDRANATH TAGORE  
UNIVERSITY  
MADHYA PRADESH  
BACHELOR OF COMPUTER  
APPLICATION**

01/2017

**HIGH SCHOOL: 12th Science**

---

## Certifications

- API Security Architect - API Academy (Broadcom Corporation)
- API Designer - API Academy (Broadcom Corporation)
- Certified AppSec Practitioner (CAP) By The SecOps Group

- Engaged in Penetration Testing on Web, APIs, and Network Infrastructures
- Performed Attack Surface Management (ASM) driven VAPT, mainly attack surface analysis and in-depth Open-Source Intelligence (OSINT).
- Performed AWS Cloud Audits
- Managing a team and end to end attack surface management assessments.
- Regular engagements with the Clients and Internal Teams
- Worked on Reporting and Documentation
- Worked on Content Creation, etc.

- Practical Ethical Hacking - By Heath Adams
- The RedTeam Blueprint - By Brandon Dennis
- Web Application Penetration Testing - Cybrary

## **RedHunt Labs - ASSOCIATE SECURITY CONSULTANT**

*06/2021 - 03/2022*

- Performed Attack Surface Management (ASM) driven VAPT, mainly attack surface analysis and in-depth Open-Source Intelligence (OSINT), continuously transmogrified manual workflows into automation that reduced time consumption by 80%.
- Performed regular Penetration Testing on Web, APIs, and Network Infrastructures.
- Performed AWS Cloud Audits.
- Worked on Reporting and Documentation.
- Worked on Content Creation, etc.

---

## **Honors And Achievements**

- I have reported vulnerabilities and been rewarded by more than 50 companies; I have also been listed in more than 25 halls of fame, including Nokia, Oracle, Siemens, Lenovo, Huawei, SANS, Takealot, Fastweb, University of Cambridge, Blackberry, BMW, Daimler AG, Audi, etc.
- Listed among top 15 researchers (2021) in the newsletter by NCIIPC India (A Unit of National Technical Research Organization).
